

Our goal at Roycemore is to provide students and their families with the proper tools in order to succeed. As applications for 2021/22 admission are now available, here is a guide for families to follow during their application process. Please feel free to contact our Admissions Director, Amanda Avery if you have any questions. We look forward to hearing from you!

Step 1:

Online Submission

Applying online is simple and provides parents with a tool for tracking their application status. Make sure to submit a copy of the applicants' birth certificate, progress reports, test scores, and if applicable, copies of any educational or psychological evaluations completed within the past three years.

Step 2:

Review Submission

Once all necessary documents have been submitted, a non-refundable fee of \$100 (\$275 for students applying from outside the US) must be submitted with each application.

Step 3:

Supplemental Docs

Reach out to the applicants' teachers and Principal to request that they complete the required LMAIS recommendation letters. Links to the letters can be found in the application and on our website through the Application Documents and Links page.

Step 4:

Experience Roycemore

Parents and students will tour the school, and ask questions about Roycemore's programs and culture. There are opportunities to tour individually or take part in larger admissions events.

Step 5:

Student Visits

Once all application materials have been received, students will be invited to complete their customized shadow day or meet the teacher visits, where they will have opportunities to take part in classes and meet with Roycemore teachers and students. Students applying for Middle and Upper School will complete writing samples during their visits.
